The whole spectrum of the care sector supply chain will be covered, including medical supplies, medical equipment, patient welfare products, nursing equipment, mobility aids, cleaning & hygiene, waste management, care management software, staffing, uniforms, IT systems, communication systems, catering equipment, food & beverage supplies, laundry systems, linen/towels, furnishings, soft furnishings, interior products/services, building services, facilities management, fire & security, energy & utilities, consultancy & brokerage services, and professional services.

Delegates will spend further quality time together in planned networking sessions and social functions, including pre-dinner drinks and a gala dinner function with entertainment. This gives delegates the opportunity to create new and lasting connections with other high-profile executives.
