COMPANY BIO

We are ArrowXL, the UK's largest and longest-established two-person home delivery and warehousing specialist in the UK.

Our consistent approach and dedication to providing reliable, seamless delivery solution within our customer-focused services have allowed us to build up over 40 years of experience in the UK logistics sector. Annually, we proudly execute over two million deliveries, each characterised by an unwavering commitment to seamless efficiency.

Our deliveries are made by a specialist two-person team who are trained in-house at our ArrowXL Development Academy. This ensures that our fleet is not just a group of employees, but a dedicated team of delivery experts, committed to upholding the highest standards in the logistics industry. Our qualified teams are not only taught all aspects of home delivery but the importance of customer service - treating your customers as you would like them to be treated. Our aim is to provide smiles every mile.

CURRENT OR FUTURE PROJECTS

- ⌚ All area's of spend are under review, such as FM estate, warehouse and fleet with the exception of IT / software such as Customer Service Centre & route optimisation/planning software.

Established for over 85 years, Calor is one of Britain's best-loved brands. Supplying rural Britain with energy to keep their homes and business running.

At every stage of our history, we've been pioneers of new ideas

From gas bottles to underground tanks, LPG to Futuria Liquid Gas, each decade has been marked by a new Calor innovation.

Over the years, we've expanded quickly to meet evolving needs and reach more customers; whilst keeping true to the heart of our mission - facilitating access to gas across Great Britain, even outside the mains gas grid.

The team at Calor are proud to be celebrating our 85th anniversary in 2020. From the beginning of 'Calor Gas' in 1935, we have powered homes and businesses right across the UK for an incredible 85 years.

COMPANY BIO

Diamond Logistics was founded in 1992 with the aim of helping SMEs with their delivery and fulfilment needs. Initially, we offered a same day courier service, but, with growing demand, this has scaled to include overnight, international, fulfilment and storage solutions. Our network of over 40 fulfilment and delivery sites across the UK now provide end-to-end logistics solutions for clients both big and small.

Innovation and customer focus are at the centre of our work. We've fully embraced new technological solutions to grow and improve our services, launching our own logistics platform, despatchlab. We continue to develop our services in line with our customer's needs and driven by our dedicated partners.

Whether you're looking to build your own courier company or grow your online business, we've got a solution for you.

COMPANY BIO

Oriflame Cosmetics is a leading beauty company that specializes in direct selling, offering a wide range of innovative, nature-inspired beauty and wellness products. Founded in Sweden in 1967 by brothers Jonas and Robert af Jochnick, Oriflame has grown into a global enterprise, with a presence in over 60 countries and a network of millions of independent sales consultants.

The company's core philosophy is built on Swedish values of quality, sustainability, and a deep respect for nature. Oriflame's product portfolio includes skincare, fragrances, color cosmetics, and wellness products, all developed using advanced scientific research combined with the best of natural ingredients. Iconic product lines such as NovAge and Wellness by Oriflame are just a few examples of their dedication to helping people look and feel their best.

Oriflame stands out for its commitment to sustainability. The company strives to minimize its environmental impact by using responsibly sourced ingredients, eco-friendly packaging, and adhering to strict ethical standards. It is also involved in various philanthropic initiatives, notably through the Oriflame Foundation, which supports causes related to children and young people.

CURRENT OR FUTURE PROJECTS

- Oriflame operates in over 60 markets globally, delivering high-quality, nature-inspired beauty and wellness products direct to millions of customers.

As part of Oriflame's long-term strategic vision, the company is gradually transitioning to a fully outsourced logistics and transport model. This shift is designed to streamline operations, reduce complexities, and allow Oriflame to focus more on its core business—developing and marketing cutting-edge beauty products. By outsourcing these functions, Oriflame aims to improve efficiency, enhance customer service, and optimize resources, ensuring that the company remains agile and competitive in the dynamic global market.

Pharmaron is a premier R&D service and manufacturing provider for the life sciences industry. Founded in 2004, Pharmaron provides a broad spectrum of research, development and manufacturing service capabilities throughout the entire drug discovery, preclinical and clinical development process across multiple therapeutic modalities, including small molecules, biologics and cell and gene therapy products. With over 19,000 employees, and operations in China, the U.S., and the U.K., Pharmaron has an excellent track record in the delivery of R&D solutions to its partners in North America, Europe, Japan and China.

CURRENT OR FUTURE PROJECTS

- Pharmaron Liverpool have received a prestigious grant from the UK Government's Life Sciences Innovation Manufacturing Fund to expand their viral vector and DNA manufacturing facilities for more than 8000sqm.

This major expansion project will provide a four-fold increase in gene therapy process development and analytical capacity including 3500sqm for future commercial scale GMP capacity. The resulting facility will greatly enhance the scope of Pharmaron's services to vaccine, cell and gene therapy customers and allows Pharmaron to continue expanding its scientific team at Liverpool. The total investment in capital and people for this expansion is estimated to be in the region of £151M

COMPANY BIO

Platts Transport, established in 2020 during the global pandemic, Brexit, and HGV driver shortages, leveraged 50 years of logistics expertise from the Platts Group to serve the wider UK haulage market. Now a standalone business, it is led by Chris Whittaker, the third generation of the Platts family, and Tom Mortimer, Transport Manager, who has introduced operational efficiency and innovation over the past two years.

In the last 18 months alone, Platts Transport has focused on fleet efficiency, improving MPG by 1% through driver coaching. Emphasising sustainability, the company has also trialled electric HGVs to reduce emissions, aligning with long-term environmental goals.

Fleet capacity has grown with the addition of 23 trailers, each tailored to customer specifications through a rigorous refurbishment process. Our customer-centric approach fosters strong relationships within the haulage industry, enabling tailored transport solutions and consistently positive feedback.

Safety and compliance are priorities, with established Standard Operating Procedures (SOP) and Risk Assessments (RAMS) regularly reviewed and utilised by our drivers. Our Safety Hub also ensures drivers are continually learning about evolving safety standards.

CURRENT OR FUTURE PROJECTS

- Looking forward, the company plans further fleet expansion, aiming to grow its market presence and provide development opportunities for newly qualified drivers, reinforcing its commitment to team growth and industry leadership.

COMPANY BIO

The NX Group delivers highly secure supply chain solutions that ensure our customers' products are always safe in our hands.

We offer a flexible suite of secure logistics and warehousing solutions for goods that require an extra level of care, with an emphasis on exceptional service and performance. Our secure warehouse facilities and one-touch distribution solutions deliver peace of mind for our customers, allowing them to focus on growing their business and brands.

We provide an efficient and highly secure solution for the movement and storage of your goods, using our dedicated fleet, drivers, and warehouse team.

Our facilities and services are extremely secure and therefore ideally suited to high-value and delicate goods.

All services are tailored to customers' specific requirements. Our core services include:

- Secure Distribution
- UK Final Mile Distribution
- Retail Delivery Services
- Secure Warehousing
- E-commerce and Fulfilment
- Amazon Distribution Services

NX moved its head office operations from Crick to Daventry in 2021 and has further sites in Crick and Long Buckby.

To discuss your specific requirements contact our sales team on sales@thenxgroup.com or visit www.thenxgroup.com

CURRENT OR FUTURE PROJECTS

- Due to a potential expansion of our warehouse infrastructure, we are in the market for additional racking solutions. We'd been keen to discuss possible collaborations with suppliers offering innovative and efficient racking systems.

COMPANY BIO

Yusen Logistics is the insight-driven, customer-centric logistics partner to global business. We offer a suite of supply chain solutions delivered with superior quality, insight and expertise.

With the ambition to be the world's preferred supply chain logistics company, we strive for continuous improvement and service excellence across all our operations and activities. We invest in a deep understanding of our customers' business, their customers, the challenges they face and the goals they want to achieve. We use this insight to become an integral part of their success, from strategy through to execution.

We deliver this through an extended range of services from International Freight Forwarding, Contract Logistics, and Supply Chain Solutions to Industry insights covering the full supply chain. And by staying at the forefront of technological and operational innovation, we find a better way to bring our customers even closer to the markets and communities they serve.

With 25,000 employees covering 47 countries and regions and over 680 locations, we are connecting people, businesses and communities to a better future every day.

In short, we create better connections for the future of business.

CURRENT OR FUTURE PROJECTS

- ⌚ Yusen Logistics are developing a 1,191,000sqft shared user facility which has been designed to be a net zero facility and will be fully operational by the end of 2025.

The new facility boasts the latest warehouse automation solutions, providing 236,000 pallet space storage and is immediately adjacent to the new Northampton Rail Freight Interchange.
