COMPANY BIO

ABENA UK is a trusted one-stop supplier specialising in hygiene, incontinence and protective solutions for the care sector. With more than 70 years' experience, they understand the particular demands of nursing homes, domiciliary care and other health-care settings. They offer a comprehensive range - from incontinence garments and under-pads to gloves, cleaning systems and bed protection - all designed to support dignity, infection control and operational efficiency. Their full traceability, dual certifications and in-house production underpin their commitment to quality. ABENA UK is not just product-centric: their "Knowledge Centre" provides evidence-based guides on topics like dementia care incontinence and skin-care best practice. Sustainability is built-in: they commit to renewable energy, circular-economy practices and responsible sourcing, matching many care-providers' environmental goals. For care-sector delegates looking for a partner who offers holistic solutions, expert advice and a strong ethical backbone, ABENA UK offers the right mix of reliability, innovation and values.

COMPANY BIO

Algeos is a leading British family-owned medical technology company, specialising in the design, manufacture, and distribution of high-quality materials, equipment, and consumables for the podiatry, physiotherapy, orthotics & prosthetics, orthopaedic, footwear and rehabilitation sectors. With its headquarters in Liverpool, UK, Algeos also has international offices in Australia, the Middle East and other global partners, serving customers in over 60 countries.

PRODUCT RANGE AND SERVICES

Algeos provides a comprehensive range of pressure care products aimed at preventing pressure ulcers, particularly for individuals at risk due to prolonged pressure on specific areas. Products include pressure relief cushions and supports from Levabo, which work by distributing weight evenly and alleviating pressure on vulnerable areas, such as pressure sores on heels, contributing significantly to pressure ulcer prevention and enhanced patient comfort. The automatic patient turning mattress, Turn All, by Levabo, is a recent addition to Algeos' portfolio and is particularly well-suited to care environments.

COMPANY BIO

Altro have been at the forefront of innovating floors and walls for over 100 years. Today, working closely with architects, end customers, engineers, designers and contractors around the world, our insight and expertise help them transform everyday spaces into environments that can improve the wellbeing of everyone that uses them.

And by consistently turning creative thinking into practical, real-world solutions – that maintain the highest standards of safety and durability – Altro have become synonymous with quality.

Designed for possibilities. Made for people.

PRODUCT RANGE AND SERVICES

Altro delivers integrated flooring, wall, and door solutions designed specifically for care homes. Our products combine safety, hygiene, and comfort with a warm, homely aesthetic—supporting the wellbeing of residents, staff, and visitors alike. With decades of experience and partnerships with leading care organisations, we offer dementia-accredited, easy-to-clean surfaces that aid navigation, reduce slip risks, and promote infection control. Altro helps create environments that feel like home while meeting the highest standards of care.

At Altus Healthcare, we believe technology should transform care , not just tick a compliance box.

Our mission is bold: halve falls in care by 2030.

We combine AI-enabled monitoring, live dashboards and CPD-accredited training to give care teams total visibility, faster responses and measurable improvements in CQC "Safe" and "Well-Led" ratings.

Every home we support sees the same outcome: fewer falls, stronger compliance, happier families.

This isn't theory. Our 90-day Falls Prevention Programme delivers real-world change , blending hardware, data and frontline training so managers see results within weeks, not years.

Why Altus? Because we've lived it. Our team has felt the heartbreak of preventable falls. That's why we don't sell gadgets, we build partnerships that save time, money and lives.

If you want technology that actually moves the needle here we are!

 altushealthcare.co.uk  sales@altushealthcare.co.uk

 PRODUCT RANGE AND SERVICES

Altus Healthcare delivers fully integrated, AI-driven fall-prevention and behaviour-detection systems to reduce risk and improve safety.

Our range includes Nurse-Call & Alert Systems, Intelligent Care Solutions (asset tracking, air-quality, workforce tools), and Professional IT Infrastructure with managed Wi-Fi and AV integration.

Services cover Consultancy & Design, seamless Installation & Integration, plus 24/7 After-care & Support for reliable, outcome-driven performance.

COMPANY BIO

Amaré Health exists to provide care without compromise. Our unparalleled commitment to placing top-quality candidates is at the heart of everything we do because there is no margin for error when it comes to health.

Bespoke Services for Clients

Driven by a force of leading consultants and stellar talent, our bespoke service is guaranteed to deliver professional excellence as and when it is needed. This, combined with our years of industry experience, means both you and your patients can be confident in the level of care being provided by our carefully selected nursing staff. We pride ourselves on matching the right people to the right jobs. Dedication, enthusiasm and efficiency are a must and you'll be sure to receive that when taking on our first-class candidates.

We are proud to provide all of our clients an unmatched recruitment service, from screening to compliance, the process is smooth and stress free, meaning both you and your patients can be confident in the ability of the nursing staff that we have selected for you.

- Specialist & Managed Staffing Partnerships

We work directly with premier institutions (e.g. Cleveland Clinic London) to provide staffing, covering roles from ICU to theatres, acute wards, rehab, and outpatient services.

Our transparent pricing structure allows us to ensure you are getting the best value for money when it comes to finding and placing top-notch nursing staff

PRODUCT RANGE AND SERVICES

Nursing, Midwifery and Care Assistants.

20+ years experience specialising in Community Healthcare and Children services.

Amaré Health was established in 2019 to meet rising demand for therapy-related and clinical staff across the NHS, local authorities, and private healthcare – building on the legacy of its sister brand.

Our mission is simple: put patient care above profit, deliver high-quality staff, and create a workplace where professionals are valued, supported, and proud to work.

We strive to maintain a learning culture that encourages continuous improvement, ethical standards, and transparent collaboration.

Aureum Care Technologies is proud to be the official reseller for Verso Vision's Falls Prevention System in the UK.

Verso Vision is a cutting-edge Finnish technology that uses advanced artificial intelligence and 3D sensors to detect and prevent falls in care settings. Designed specifically for residential and nursing homes, this non-intrusive system empowers care staff to act quickly, reduce risks, and enhance the safety and dignity of residents.

Aureum Care Technologies combines hands-on experience in elderly care with a deep understanding of technology and innovation.

We don't just sell - we support you every step of the way: from planning and installation to staff training and ongoing maintenance.

Our mission is to empower care providers with smart, sustainable solutions that genuinely enhance quality of life for residents.

**PRODUCT RANGE AND SERVICES**

The Verso Vision system operates through discreet ceiling-mounted sensors that monitor resident activity 24/7 without the need for wearables or cameras.

When a fall or abnormal movement is detected, the system instantly alerts staff via mobile devices or central monitoring dashboards. This enables a faster response time, reducing complications related to delayed assistance.

COMPANY BIO

Care England, a registered charity, is the largest representative body for independent providers of adult social care in England.

We speak with a unified voice for our members and the care sector. We are committed to supporting a united, quality-conscious, independent sector that offers real choice and value for money. Our aim is to create an environment in which care providers can continue to deliver and develop the high quality care that communities require and deserve.

Our membership includes organisations of varying types and sizes, amongst them single care homes, small local groups, national providers and not-for-profit voluntary organisations and associations. Between them they provide a variety of services for older people and those with long term conditions, learning disabilities or mental health needs.

PRODUCT RANGE AND SERVICES

- Representation at local and national levels
- Regular policy communications
- Forums for providers to share, learn and develop good practice
- Local and national media opportunities
- Expert led briefings
- SMART Care Intel: Managing a care service brings constant challenges, from staffing to regulation. The Assisted Procedure Writing Tool is a smart, time-saving solution for managers and frontline staff. Built on insights from 30,000+ CQC inspection reports, it provides clear, structured guidance to help you create tailored procedures aligned with CQC expectations - giving you a clear, professional starting point in seconds, not hours.
- Market Intelligence Tool (MINT): Care England's Market Intelligence portal exhibits a wide range of pertinent CQC, fee, financial, and general sector-specific data from across both older person and younger adult services through a simple searchable solution at a local authority level, for the use of care home providers.
- Member Savings & Discounts: Save on essential services such as insurance, utilities, and consumables, helping you focus on growing your business.
- Expert Guidance: Access white papers and reports with actionable insights to overcome challenges, boost ROI, and deliver exceptional care.
- Job Board: A free job board for care providers to help reduce reliance on costly external job sites.

COMPANY BIO

CareHomeLife is a multi-award-winning specialist supplier of medical, housekeeping, laundry, incontinence, equipment, and furniture to care homes. We provide all the essentials a care home needs to run smoothly - except the food - but the value we deliver is worth so much more than what comes in the box. Resident-first thinking helps us support our customers to provide the absolute best care, in an environment where people can thrive, feel safe and live with dignity.

It's not what you use, it's how you use it. Our trusted protocols, including sustainable auto-dose laundry systems with first-pass results; high-performing cleaning methodologies, and a superior continence care system prioritising skin integrity, help make life in a care home better for everyone who works and lives there.

Watchful of the challenges and opportunities shaping the industry in 2025, our team of helpful experts are working closely with care homes to reduce their total operational costs, whilst advancing care delivery and resident outcomes with the products and systems we sell.

PRODUCT RANGE AND SERVICES

All the essentials a care home needs including Medical, Housekeeping, Equipment and Furniture. Multi-award winning cleaning and laundry systems. Dignified AMD continence care. Dementia friendly products including Ornamin and Nilaqua.

COMPANY BIO

Established in 2013 current group turnover £15 million, 30 staff. Circom provides site specific national waste management, and recycling services. We utilise the very latest weight collection and processing technologies to recover value, reducing landfill and promote a circular economy by returning benefits back to our customers, in terms of value or cost savings.

We work with our customers to develop specific weight segregation processes to improve recycling levels which normally means reducing costs. Therefore, aligning sustainability with cost savings.

It is this hands-on approach to reducing waste management costs across the estate where Circom audit every customer site to understand the business priorities, the operations and inputs/outputs. This allows us to develop a company -wide waste management and recycling programmes that are deliverable at site level and supported by dedicated account management and our customer care team.

- Circom will provide free of charge waste management audits for your care homes.
- Review current waste practices and collection schedules, with the name to generate cost savings.
- Move towards 100% diversification from landfill. Become greener and reduce cost in the process by moving towards Net Zero Carbon Emissions for Waste Management.
- Every waste type can be managed from 1 single point of contact.
- Circom provide waste and recycling services already to multiple national care homes, food and beverage, hospitality, retail, banking, and facilities sectors.

PRODUCT RANGE AND SERVICES

COMPANY BIO

Connected Safety Net is on a mission to make the world a safer place. We design, build, sell & support innovative technology solutions that replace paper forms & accident books to achieve compliance & prevent near-misses, accidents, injury & incidents on the road or in the workplace.

Our flagship technology, 'Audits' & 'Incidents', provides a mobile app and a cloud-based 'Workplace Safety Management Platform' used by organisations who adopt a systematic approach to Occupational Health & Safety programs creating a culture where everyone wants to be safe.

Our simple, intuitive mobile apps & web software provide an automated process to encourage people to report events in real-time, use powerful speech to text to dictate the circumstances of an injury and capture supporting photos and/or videos into a flash report. Health and Safety Directors and their teams may launch an investigation at the scene or their desk, prepare an action plan, track lost time, capture supporting documents and notes, along with the formal report to send to an insurance provider as appropriate.

Our new technology solution is our metaverse training app – our prototype app takes health & safety awareness training to the next level by using VR & AI technology to capitalise on the latest technology and techniques available for learning.

Originally established in 1994, Consultus has grown into an international group focused on Net Zero providing trusted advice, buying services, market insights and ongoing management for Business Energy and Business Water, for national utility markets and cross-border. We were voted Most Trusted Consultancy - Large Customers at the Energy Live News Awards (TELCA) in 2019 and 2020, then in 2021 awarded Best Technology Business Solution for our Net Zero Pathway tool and Consultancy of the Year - Large.

Our end-to-end approach includes consulting, strategic planning, negotiation, procurement, market intelligence, compliance and demand reduction. An early mover in deregulated utility markets, we rapidly developed an industry reputation for openness, transparency and market intelligence. Our independent-minded approach has led to high levels of client retention - more than 90% year-on-year - and strong relationships with industry suppliers.

PRODUCT RANGE AND SERVICES

Consultus' energy solutions helps businesses reduce costs, manage risk, and transition to sustainable energy. We specialise in energy procurement, contract negotiation, metering & data analytics, on-site solar feasibility, and Net-Zero strategies. Some of our other services include cost optimisation, bill validation, and ongoing advisory support. We provide tailored solutions for a vast number of sectors in order to support them with the financial and sustainability goals.

Duckworth Group is a long established and proudly independent family run wholesaler specialising in cleaning, hygiene, and janitorial solutions. We are based in Blackpool, Lancashire and have a heritage dating back to 1940. The business has evolved into a trusted regional, and national partner for institutions that rely on dependable hygiene and cleaning products every single day. We have built a reputation for consistency, reliability, and customer-centred service. The business remains family-owned and operated, allowing us to preserve a personalised approach that sets us apart from larger, corporate suppliers.

- We stock more than 3,000 products and we can also procure specialised items to suit each organisation's needs.
- Dedicated Account Management for a personalised approach to ensure continuity and a deep understanding of each customer's environment.
- Flexible Ordering Options either online, email and phone.
- We believe loyalty should be recognised and rewarded. Our loyalty programme allows customers to earn points when they spend and 'refer a friend'. These points can be redeemed against future orders with us.
- Flexible Delivery Solutions: We offer flexible delivery options, including free delivery above modest order thresholds.

Duckworth Group's mission is simple: To provide dependable supplies, a transparent service, and a partnership customers can trust today, tomorrow, and far into the future.

 **PRODUCT RANGE AND SERVICES**

Our product range spans hygiene consumables, cleaning chemicals, janitorial equipment, waste-management products, paper and tissue products, dispensers, PPE, environmentally conscious alternatives, and a wide range of disposable items. Whether a customer requires basic supplies, specialised equipment, or a bespoke sourcing solution, we are equipped to deliver a seamless experience from first enquiry to final delivery.

COMPANY BIO

Famileo Pro is a communication solution that helps care providers strengthen resident wellbeing while meeting key CQC expectations. Families send messages, photos and updates through a simple app; the system converts them into a personalised printed journal delivered to each resident, keeping even non-digital individuals connected.

This direct, regular contact reduces isolation, boosts emotional wellbeing and reinforces intergenerational bonds. The printed journals spark conversation, support reminiscence and encourage social participation, contributing to a richer daily life in the home.

For care teams, Famileo Pro improves operational clarity. It provides a transparent, traceable communication channel that reduces administrative back-and-forth and gives staff an accurate record of family input. This supports consistent care planning, strengthens collaboration with relatives and contributes to the responsiveness, personalisation and communication quality expected by the CQC.

By combining meaningful family involvement with practical tools for staff, Famileo Pro helps care providers demonstrate a clear commitment to person-centred care and measurable improvements in residents' quality of life.

At Furncare, our mission is to be the first-choice furniture brand for every designer in care. Guided by our commitment to transforming spaces and elevating lives, we design and manufacture furniture that enhances wellbeing and enriches every care environment.

As a proud family-run business with over two decades of specialist experience, we've become a trusted partner to care homes, designers, and operators across the UK. We understand the unique demands of care settings - where safety, comfort, durability, and style must work in harmony. Every product we create reflects this understanding, from dementia-friendly furniture to robust, thoughtfully engineered pieces for high-use environments.

We provide end-to-end project management for new-build and refurbishment projects, supporting clients from initial brief through design, manufacturing, delivery, and installation. For faster requirements, we supply complete, fully coordinated room packages delivered within just five days, helping projects stay on schedule without compromising on quality.

With in-house UK design and production, we deliver consistent craftsmanship, reliable lead times, and the flexibility to tailor furniture to any scheme. Our dedicated customer support and nationwide white-glove delivery and installation service ensure a seamless, hassle-free experience.

PRODUCT RANGE AND SERVICES

Furncare offers a full range of care-focused furniture, including bedroom, lounge, dining, and dementia-friendly pieces, plus bespoke made-to-order items. We provide end-to-end project management for new-build and refurbishment projects, from design and manufacturing to delivery and installation. For fast-turnaround needs, complete room packages can be supplied within five days. Our in-house UK production ensures quality, reliability, and flexibility, supported by design consultations, nationwide delivery, professional installation, and ongoing aftercare.

CLAIMS SPECIALIST

COMPANY BIO

HMA Tax are an award winning Capital Allowances Specialist, and over the past decade they have helped commercial property owners identify unclaimed Capital Allowances, generating substantial income/corporation tax relief and refunds.

Most care home owners are unaware that their property is holding thousands of pounds of unclaimed tax relief in the form of Embedded Capital Allowances. Typically, we would expect to find an average of 35% of the original purchase value of a care home property in previously unidentified Capital Allowances. £350K of allowances in a £1M property translates as £225K in tax refund and/or reduction in future tax liability to a higher rate taxpayer.

If you own a commercial property and are a UK tax payer, then you are eligible to make a claim. On average it takes only 6-8 weeks from our initial meeting to you receiving your relief from HMRC.

With over 8,500 claims completed, HMA Tax is trusted by thousands of commercial property owners, and they work with many accountants & solicitors across the UK in this specialist sector

Marlowe Fire & Security is the leading provider of fire and security services in the UK and a trusted partner to care homes, supported living settings and healthcare providers nationwide. We protect people where it matters most and our work is shaped around the routines and sensitivities of care environments.

We operate at significant scale with national coverage and thousands of customers across the country. We have hundreds of specialist engineers who are trained in care sensitivity, safeguarding and compliance. This allows us to deliver consistent, reliable support to single homes, regional groups and large national care operators.

We provide a full range of fire and security solutions including fire alarms, nurse call systems, CCTV, access control and inclusive fire alert systems that support residents with hearing impairments. Every service is designed to fit quietly into the daily life of a care setting so residents feel safe and staff can focus on delivering quality care.

Our teams plan visits around routines, minimise disruption and provide fast responses when incidents occur. Combined with 24/7 monitoring and fully accredited service delivery, we help care providers maintain safe, compliant environments with confidence.

Care organisations choose us because we understand the pressures they face. We offer dependable national support with the personal approach of a partner who knows the care sector and works alongside your teams to protect residents and staff.

NH Maintenance Ltd (NHM) is a trusted partner in the medical equipment maintenance and compliance sector, with over two decades of experience supporting hospitals, care homes, and complex-care providers. Our mission is to deliver proactive, continuous service that maximises equipment safety, minimises downtime, and simplifies compliance, ensuring seamless care for patients and peace of mind for providers.

With a robust inventory of over 33,000 spare parts and industry-leading van and warehouse stock levels, NHM achieves one of the highest first-fix rates in the sector. Our skilled engineers, backed by 60+ years of combined experience, provide expert technical support, transparent advice, and 24/7 access to a digital customer portal for real-time compliance and service records.

From full installations and refurbishments to ongoing maintenance and digital compliance, NHM delivers precision, professionalism, and measurable value. Our commitment to efficiency, sustainability, and client partnership makes us a leader in keeping care environments safe, compliant, and continuously operational.

COMPANY BIO

OneTouch is a comprehensive care management system offering multi-functional capabilities for care providers. Our award-winning software stands out by providing a single system for carers, clients, families, and management, streamlining communication and facilitating instant information sharing. OneTouch helps to optimise care delivery by freeing up time and enabling staff to focus on service users rather than administrative tasks.

OneTouch stands in a league of its own by:

- Providing a single system for carers, clients, families and management.
- Streamlining and unifying communication and information sharing.
- Giving you and your team time back during the day.
- Making sure your onboarding process is comprehensive and seamless.
- Providing brand new eLearning and Recruitment modules (talk to us to find out more).
- Having a modern UI designed by care professionals, for care professionals.

The OneTouch system functionality range included as standard comprises:

- Medication Management and eMAR
- Invoicing and payroll management
- Digital care planning
- Digital task creation, tracking and management
- Rostering/scheduling and attendance
- Auditing process management, digital evidencing, and site visit preparation tool
- Clinical governance
- HR suite
- KPI reporting
- AI

If you're looking for a single system, platform and record for your care organisation then please visit us at the Forum. Lee and Kelly would be delighted to discuss your specific requirements and how best the OneTouch system can exceed your expectations.

Otherwise please visit www.onetouchhealth.net and book a no-obligation demo to see the system in action.

www.showerspaah.co.uk

COMPANY BIO

ShowerSpaah® was founded by engineer and designer Alan Somerfield with a simple mission – to make every shower safer, easier, and more dignified for all bathers. Inspired by personal experience and years of development, ShowerSpaah brings engineering innovation and human-centred design to one of the most important yet overlooked areas of daily care: washing.

The company's approach is built around collaboration – working closely with occupational therapists, care professionals, and end users to ensure each solution genuinely improves safety, efficiency, and independence in real care settings. Every design is developed and tested in the UK, and manufactured through ISO 9001-approved partners to the highest quality standards.

ShowerSpaah is backed by Oxford University Innovation and supported by Innovate UK, reflecting its proven innovation and impact credentials. It is part of a new wave of British assistive-technology businesses bridging the gap between healthcare innovation and everyday practicality – delivering scalable, sustainable products that improve lives for residents while easing pressure on care teams and budgets alike.

PRODUCT RANGE AND SERVICES

ShowerSpaah® is a patented assistive showering system that makes showering safer, faster, and more dignified for residents while helping care homes reduce costs. It blends liquid soap directly into the water, creating a gentle, foaming flow that washes and rinses at once.

Installed in minutes with no disruption, it fits existing hoses and can be fitted by maintenance teams. Residents no longer need to reach for bottles or dispensers, reducing slips and falls. For seated residents, the foam reaches areas other showers cannot.

It shortens routines, saves soap, hot water, and energy, and reduces carer time—improving safety, hygiene, independence, and operating efficiency.

COMPANY BIO

Snapfix is the centralised operations platform designed for care and nursing homes seeking to streamline their maintenance, compliance, and team communications. By replacing outdated systems - manual logs, emails, WhatsApp chats, disconnected spreadsheets - with one visual-first platform, Snapfix empowers care providers to coordinate all building, compliance, and operational tasks with confidence and ease.

Any team member can log issues, assign tasks, and capture compliance proof instantly using just a photo - no training required. From preventive maintenance and repairs to safety checks and regulatory documentation, Snapfix keeps accountability and compliance front and center so nothing slips through the cracks.

Snapfix is helping care homes deliver safer environments, better resident outcomes, and total operational peace of mind.

COMPANY BIO

Softworks has been helping organisations manage their people with confidence for more than 35 years. Founded in Ireland in 1990 and now operating across Ireland, the UK, the USA, Canada and Italy, we deliver workforce management software that supports better care, stronger teams and smoother operations.

Our mission is simple. We empower organisations to do what they do best with our technology, people and insights.

Our platform takes the pressure off time-consuming administration by automating attendance, scheduling, absence management, and compliance tasks. This gives managers more time to focus on delivering quality care while improving engagement, reducing risk and supporting better decision making.

We combine advanced technology with hands-on project management, consulting, training and ongoing support. This ensures every organisation gains long-term value and a solution that adapts as their needs evolve.

Care providers choose Softworks for our configurable system, responsive service and practical expertise in solving workforce challenges. Our goal is to help you build a more efficient and supportive working environment so your teams can focus on what matters most.

PRODUCT RANGE AND SERVICES

- Time and Attendance Software
- Employee Scheduling Software
- Absence and Leave Management Software
- Workforce Analytics and Compliance Software

Implementation and Project Management

COMPANY BIO

SOS Care Management Systems is a cloud-based, all-in-one care management software solution designed for care providers. Purpose-built for care homes and domiciliary services, the platform centralises resident data, workflows, tasks, communications, and compliance into one secure system. As an NHS-Assured Supplier for Digital Social Care Records, SOS ensures its technology meets nationally recognised standards for safety, security, and interoperability—giving providers confidence in adopting a trusted, accredited solution.

The system streamlines complex care processes, from pre-admission assessments to daily care planning, monitoring, and auditing, helping teams reduce paperwork and focus more on person-centred care. With 100+ modules, flexible dashboards, and tools that support CQC governance and audit readiness, the platform is both scalable and highly adaptable.

PRODUCT RANGE AND SERVICES

SOS Care Management Systems offers an all-in-one digital care platform covering the full resident-care lifecycle, including assessments, care planning, daily monitoring, task and workflow management, and communication logs. The solutions include medication, staff rostering, compliance and audit tools, and custom dashboards. The company also provides onboarding, training, and 24/7 support to ensure smooth implementation and efficient care-home operations.

COMPANY BIO

Spirit Energy is one of the largest and longest running independent solar installers in the UK, with more than 6000 installations completed since 2010. We specialise in commercial solar PV, battery storage, and EV charging, delivering predictable savings, energy resilience, and strong ESG outcomes for organisations that need long term certainty.

Senior leaders choose us because we understand the pressures faced by care home groups and multi-site operators. Our systems typically offset 30 to 50 percent of electricity use even with continuous demand, supported by insurance-backed guarantees and remote monitoring included as standard. We offer support with PPAs, asset finance, and other funding routes, and maintain full compliance with MCS, RECC, and associated standards to protect future income and regulatory standing.

We work directly with CEOs, finance directors, and operations heads who need systems that perform reliably for 25 years or more with a partner they can trust. Every project is designed, engineered, and installed entirely in-house with no subcontractors. This level of control is why more than 50 care homes, private hospitals, manufacturers, hotels, and logistics businesses already rely on Spirit Energy for dependable, long life energy systems.

PRODUCT RANGE AND SERVICES

- Solar PV, battery storage and EV charge points.
- Energy consultancy, design and installation from a fully in-house team.

NOTES

SUPPLIER

**JAMES STANDER**

DIRECTOR

COMPANY BIO

Sustainable Advantage was formed in 2010. We support over 700 organisations operating from over 15,000 locations.

The care sector is our largest client sector where we partner with over 20 large care home operators across over 3,000 locations.

Waste management and energy procurement are 2 large components of sustainability, and within a care environment, represent a material spend.

Our role is to help our care home clients reduce their waste costs day 1 by 10-20% and then in addition, provide day to day support to manage collections, take care of all compliance, create monthly waste reports (per site and overall) and improve waste KPI's, further reducing cost. We currently procure and manage over £20m of waste a year.

We also help care homes procure their energy more effectively and help them use less energy by gathering energy usage data and converting that into useful and insightful management information (MI). We procure and manage over £400m a year of energy.

We are also able to help on sustainability / ESG more holistically. We assess the sustainability / ESG drivers on our care home clients, identify their maturity across circa 60 areas and create a 12 month action plan to improve. This programme is aligned with the CQC's ESG question set within their annual assessment. We have specialist teams who will advise on areas such as net zero / decarbonisation and social value.

We have been nominated 3 years in a row for an award as Sustainability Advisor of the Year

More time to care

You got into care because you wanted to make a difference to people's lives.

But somewhere between your second and third home, the admin side started taking over - spreadsheets, rotas, endless payroll questions, and scrambling for agency cover when someone calls in sick.

Syncurio is care home management software that tackles the day-to-day operational challenges of managing care homes, including staff management, rostering, and resident billing.

Why us?

- Automated time and attendance with a simple tablet, reducing admin and ensuring accuracy of time recording
- Payroll that doesn't consume your life - one of our clients went from spending 12-13 hours over 2-3 days to just 30 minutes
- Less reliance on expensive agency staff - better visibility of who's available means fewer last-minute panic calls
- Staff who turn up - when your team can see their rotas clearly and manage swaps easily, absenteeism drops
- UKBA compliance - feel confident with our Right to Work checks and sponsorship tracking built in.

PRODUCT RANGE AND SERVICES

Features to support growing care homes. Our modules include:

- Unbeatable support. We are on hand to help and make your move to digital easy and straightforward
- Care home operations (rostering, time and attendance, and payroll)
- Resident management (billing, reporting, invoicing and CRM)
- Governance (dashboards, audits, and action plans).

COMPANY BIO

In 2025 alone, T150 Energy has delivered over £540,000 in financial impact for organisations across the UK – including £486,629.73 in 3-year energy savings, £53,383.00 in VAT, CCL, and kVA corrections, and £22,971.78 in direct donations given back to care, education, charity, and supported living services through our Payback Scheme. More donations are already scheduled for early 2026.

T150 Energy helps care and supported living providers secure the best-value gas and electricity contracts, offering transparent guidance, market clarity, and full renewal support.

Through our Payback Scheme, eligible organisations receive a direct donation from T150 Energy when arranging their energy contracts with us. These funds – which have already supported frontline organisations across the UK – can be used however they choose, from resident activities to staff wellbeing or service improvements.

Our mission is personal. In 2020, our Managing Director, Matt, was given six months to live due to a colloid cyst in the 3rd ventricle of his brain. After making a full recovery thanks to exceptional care, he launched the Million Pound Mission to give back to the services that save and transform lives.

Today, T150 Energy combines expert procurement with genuine social impact – helping care providers cut costs while reinvesting funds directly back into their essential work.

PRODUCT RANGE AND SERVICES

Sources best rates for gas and electricity contracts for businesses.

Makes a voluntary donation to all organisations within the care, education and charity sectors.

T A Interiors specialises in designing, printing and framing bespoke artwork, mirrors and decorative interior solutions, with a strong focus on the care home sector. We understand how important thoughtful design is for wellbeing, and we provide tailored artwork packages including dementia friendly art that enhance comfort, familiarity, and engagement in care environments.

All our printing, machining, and framing is carried out in-house, allowing us to produce shaped frames, custom finishes, and high-quality artwork with full quality control. Our in-house design team works closely with clients and designers to develop bespoke pieces to any specification.

Alongside framed artwork, we create bespoke mirrors, 3D CNC and laser-cut designs, and decorative wall panelling, as well as tailored solutions for hospitality, commercial, and retail spaces.

Trusted for our craftsmanship, creativity, and reliability, T A Interiors transforms interiors into meaningful, visually inspiring spaces.

Temployer eRoster – Smarter Scheduling for Healthcare

Temployer eRoster is a modern, cloud-based rostering system built specifically for private healthcare providers such as care homes, hospitals, and multi-site services. Designed to reduce admin time, improve compliance, and give organisations full visibility of their staffing, eRoster streamlines every stage of shift planning – from creating rotas to tracking attendance and filling last-minute gaps.

- Fast, Intelligent Rota Creation - With Temployer eRoster, managers can build full rotas in just a few clicks.
- Real-Time, Mobile-First Visibility - Built with mobility in mind, Temployer eRoster allows both managers and staff to view rotas from any device, anywhere..
- Integrated Time & Attendance Tracking - Temployer eRoster includes built-in time and attendance features, allowing workers to clock in and out directly through the app.
- Compliance as Standard - Compliance is central in healthcare, and eRoster embeds it throughout the workflow.
- Leave Management & Shift Flexibility - Staff can request holiday or report sickness directly through the app, where managers can approve or decline with a single tap. Temployer eRoster also supports shift swapping, giving teams flexibility while keeping managers firmly in control.
- Cross-Site Visibility for Multi-Site Providers - Managers can switch between sites, pool staff across the organisation, and identify under- or over-staffed areas.
- Designed to Reduce Costs and Admin Time - By automating scheduling, tracking attendance, handling leave, and enabling internal staff to pick up more shifts, Temployer eRoster cuts down the administrative burden dramatically.
- A Bridge to Bank and Agency Staffing - One of Temployer's unique strengths is its integration with Temployer Core – the platform used to manage bank staff, overtime, and approved agency workers. When gaps appear in the rota, eRoster can automatically publish open shifts to internal staff first. If they remain unfilled, the system then makes them available to trusted agency partners. This ensures internal teams always get priority while still guaranteeing safe staffing levels. Because agency workers are fully compliance-checked within Temployer, managers can book them with confidence.

Comprehensive Energy Solutions from TED Group

Delivering Tailored, End-to-End Energy & Sustainability Services Across the UK and ROI
TED Group offers a full suite of integrated energy and infrastructure services, designed to support your business in reducing costs, improving efficiency, and achieving sustainability targets.

Our Core Services Include:

Energy Procurement (UK & ROI):

Expertly managed Fixed and Flexible energy contracts to secure the most competitive Gas and Electricity rates.

Power Purchase Agreements (PPAs):

Structuring long-term energy supply deals to support renewable generation and cost stability.

New Connections & Infrastructure Development:

Seamless management of utility connections and infrastructure installations, including substations.

Hydrogen-Ready Combined Heat & Power (CHP) Units:

Fully funded CHP systems engineered for high efficiency and future hydrogen compatibility.

Solar Energy Solutions:

End-to-end solar PV and solar thermal systems, with flexible funding and purchase options.

Battery Storage Solutions:

Advanced storage systems to enhance energy independence, manage demand, and reduce costs.

Electric Vehicle (EV) Charging Infrastructure:

Scalable EV charging solutions to support your transition to low-emission transportation.

Energy Management Software (Ted Tech):

Real-time monitoring and optimization of energy usage through our proprietary platform.

Procurement & Utilities Management Services:

Strategic sourcing and contract management across all energy and utility categories.

Renewable Energy & Sustainability Services:

Advisory and implementation support for decarbonization, including solar, wind, and other renewables.

Environmental & Sustainable Product Solutions:

A wide range of green technologies and services aligned with ESG and Net Zero goals.

Information Technology (IT) & Software Services:

Intelligent energy platforms and integrated software for data-driven decision making.

Mechanical & Electrical (M&E) Products & Services:

Full M&E capabilities supporting energy systems, infrastructure, and efficiency upgrades.

Power Management & Emergency Backup Systems:

Solutions for critical power resilience, including UPS and backup generation.

Turnkey Project Management:

End-to-end oversight of energy and infrastructure projects—from planning through to delivery.

Zeal are Chartered Tax Advisors and Quantity Surveyors. Our team specialise in unlocking missed Capital Allowances sitting unclaimed in care properties.

Zeal has unlocked millions of pounds in tax and cash savings for care facility owners and investors, which most didn't even realise they were entitled to.

As a specialist tax relief which accountants typically can't claim, an estimated 80% of care facility owners have not yet claimed capital allowances on the initial investment to purchase, build or refurbish their property.

Get a free capital allowances review with Zeal to find out if you are missing out on tax relief!

COMPANY BIO

Zest Recycle is a recycling and waste management company that isn't afraid to do things differently. We specialise in creating bespoke waste management plans for healthcare organisations across all major towns and cities in the UK, ensuring every site has a solution tailored to its clinical, operational and compliance needs.

Our approach is simple: deliver best value while upholding the highest standards of waste hygiene, safety and regulatory compliance. We combine industry expertise with a fresh perspective, helping healthcare providers rethink long-standing waste challenges and unlock opportunities for greater efficiency and sustainability.

We work closely with organisations across the healthcare landscape, from care homes and clinics to hospitals and specialist facilities. Our partnership-led model means we take the time to understand your pressures, priorities and care responsibilities, so we can design solutions that work in the real world.

Proudly recognised as a Finalist at the Care Home Awards 2025 for Best Sustainability Initiative, we're committed to driving meaningful change. At Zest Recycle, we believe in building lasting relationships, offering hands-on support, and delivering sustainable waste strategies that stand the test of time.

PRODUCT RANGE AND SERVICES

Healthcare waste encompasses a range of different waste types, from clinical and offensive waste to dry mixed recycling and pharmaceuticals.

To help you manage all this, the Zest team can work with you to create a bespoke plan that works seamlessly around your operations.

Our waste services include:

- Clinical Waste
- Confidential Waste
- Food Waste
- General Waste
- Recycling
- Washroom Waste
- POPs Waste

We create bespoke waste management plans for healthcare companies across all major towns and cities throughout the UK. By choosing us, you can achieve best value for your healthcare residents, whilst delivering the highest standards of waste hygiene and compliance.
